SD45B

Volvo Single Drum Compactors 4.9 t / 10,900 lb 55kW / 74hp

A passion for performance

At Volvo Construction Equipment, we're not just coming along for the ride. Developing products and services that raise productivity – we are confident we can lower costs and increase profits for customers around the globe. Part of the Volvo Group, we are passionate about innovative solutions to help you work smarter – not harder.

Helping you to do more

Doing more with less is a trademark of Volvo Construction Equipment. High productivity has long been married to low energy consumption, ease of use and durability. When it comes to lowering life-cycle costs, Volvo is in a class of its own.

Designed to fit your needs

There is a lot riding on creating solutions that are suited to the particular needs of different industry applications. Innovation often involves high technology – but it doesn't always have to. Some of our best ideas have been simple, based on a clear and deep understanding of our customers' working lives.

You learn a lot in 180 years

Over the years, Volvo has advanced solutions that have revolutionized the use of construction equipment. No other name speaks Safety louder than Volvo. Protecting operators, those around them and minimizing our environmental impact are traditional values that continue to shape our product design philosophy.

We're on your side

We back the Volvo brand with the best people. Volvo is truly a global enterprise, one that is on standby to support customers quickly and efficiently – wherever they are.

We have a passion for performance.

A strong, dedicated, capable dealer network

Our dealers are strategically located throughout North America to provide the equipment you need and the parts and service support you demand for a productive and profitable operation.

The strength of our dealer network is enhanced with extensive individualized product support training at our best-in-class Customer Center in Shippensburg and through hands-on training. Using a great Product Demonstration Center featuring a dedicated area for most commons applications, visitors operate equipment from our entire product line under a variety of simulated working conditions. This facility is in year-round use by our dealers and customers.

Building the best starts right here.

The products designed and manufactured by Volvo Construction Equipment have their beginnings at the most advanced Research & Design centers in the industry. Volvo CE machines are designed in 11 R&D centers and produced in 15 manufacturing facilities across the world.

The major R&D center and manufacturing plant in the Americas is located in Shippensburg, Pennsylvania. This facility has been in operation for over 30 years and – with its recently added 200,000 sq. ft. expansion – now covers 570,000 sq. ft. on an 80 acre campus. Dedicated work teams and highly advanced technologies and techniques using the Volvo Production System ensure continuous quality improvements, labor savings and cost control to reach the high quality that our customers have come to expect from Volvo.

The all-rounder

Maximize return on your investment with the Volvo SD45B single drum compactor, designed to boost profitability and ensure low total cost of ownership. The powerful single drum compactor is the complete package, providing superior compaction performance and unrivaled versatility. Designed to compact in confined areas, the SD45B is the best partner for commercial and residential site development, utility installations, driveways and landscaping jobs.

Designed to climb

Access hard to reach areas of the jobsite with the fully integrated traction system of the SD45B, providing superb climbing capabilities, even in the most demanding applications. The standard full-time system coupled with the NoSPIN® differential limits wheel and/or drum spin, improving safety and productivity on steep inclines or slippery surfaces.

Power up, costs down

The Volvo Tier 4 Final engine delivers high torque at low rpm to ensure superior performance and high fuel efficiency. The automatic idle feature reduces the engine speed to idle when controls are inactive for more than five seconds, cutting fuel consumption. Passive regeneration boosts productivity by automatically cleaning filters without operator input or effect on performance.

More work, fewer passes

Rely on class-leading drum performance to drive down your operating costs. The SD45B combines high centrifugal force, high amplitude and a heavy drum weight to facilitate excellent compaction, so you can hit target material density in fewer passes. Steer clear from over-compaction thanks to the auto vibration system, which shuts vibration off when the machine is returned to neutral to further enhance ease of operation.

Volvo puts you in control

Stay safe under the certified ROPS/FOPS canopy, which offers protection without restricting visibility (1 m x 1 m) all around the machine, enhancing both operator and jobsite safety. All controls are positioned within each operator's zone of comfort and reach from the adjustable seat. Because these controls are found on Volvo's larger single drum models, you can choose from a greater pool of operators.

VERSATILITY FOR ALL YOUR JOBS

Ensure solid stability across a variety of terrain with the SD45B, providing up to 12° of oscillation and 41° of frame articulation in each direction. The versatile machine maneuvers with ease, even in confined spaces, which makes it the ideal counterpart for trenching operations. Match the exact application and material type with the optional Volvo strike-off blade and padfoot shell kit to optimize performance.

EFFICIENT FROM THE GROUND-UP

When it comes to maintenance, ease of access is key. That's why the SD45B offers quick and safe serviceability from ground-level. The tilt-able platform and hinged engine hood allow access to all service points and major components. A racetrack decal identifies maintenance needs for fast routine service and minimal maintenance costs.

Drive costs down

The Volvo SD45B single drum compactor is designed to increase uptime. Thanks to ground-level service access and easy transportability, you can get back to work in no time. Take advantage of our dealer support network to ensure your compactor generates maximum profit and growth for your business.

Get to work fast

Move around jobsites swiftly and safely with the versatile SD45B. Thanks to its compact size, the compactor can quickly be loaded onto a transport vehicle and complies with safety regulations without removing components. The two-piece, clamp-on padfoot shell kit can be installed or removed in less than an hour and fits any SD45 single drum compactor.

Here to support you

Make sure your machine retains its renowned Volvo quality with a ready supply of Genuine Volvo Parts, available from your local Volvo dealer. With our extensive dealer coverage and factory trained technicians, we have a comprehensive network to fully support you using local knowledge and global experience.

Never stop improving

With MATRIS, your Volvo dealer can help identify improvement areas by analyzing your machine's operational data. Reduce maintenance costs, increase service life and optimize your operations with the Volvo patented diagnostic software.

Control service costs

We can help support the profitability of your operation with a range of Customer Support Agreements and solutions that offer preventive maintenance, total repairs and a number of uptime services. Volvo uses the latest technology to monitor machine operation and status, giving you the advice you need to maximize machine uptime.

Small in size, big in performance

VERSATILITY FOR ALL YOUR JOBS

Whether operating in confined spaces or across difficult terrain, the SD45B provides solid stability and versatility.

Designed to climb

Volvo's standard full-time traction system, coupled with the NoSPIN® differential provides excellent performance.

Power up, costs down

Boost productivity without compromising costs with the Volvo engine, featuring automatic idling and passive regeneration.

More work, fewer passes

Achieve density in fewer passes with high centrifugal force, high amplitude and heavy drum weight.

Get to work fast

Swiftly move around jobsites in the transportable SD45B and convert the drum from smooth to padfoot in less than an hour.

Control service costs

Customer Support Agreements offer preventative maintenance, total repairs and uptime services to reduce costs.

EFFICIENT FROM THE GROUND-UP

Optimize service efficiency with the hinged engine hood and tilt able operator's platform for swift ground-level access.

Volvo puts you in control

Reduce fatigue with all-around visibility, the adjustable seat and easy-to-reach controls.

Never stop improving

Reduce maintenance costs, increase service life and optimize your operations with Volvo's diagnostic software, MATRIS.

Here to support you

Ensure your machine retains its performance with Genuine Volvo Parts, available at your local Volvo dealer.

Equipment

STANDARD EQUIPMENT

- Volvo standard ROPS
- Variable frequency*
- Full suspension seat
- Tilttable cab for service
- Retracting seat belt
- Seat belt alarm
- Operator presence switch
- External lockable fuel fill
- Tilttable steering wheel
- Back-up alarm
- Daily service checkpoints list
- 12 Volt power port
- Drum isolation
- High ground clearance
- Integrated parking brake
- Parking brake test function
- Wrap-around handrails
- Two stage air intake filter
- Ballasted tires for stability
- Heavy-duty frame
- Engine fan guard
- Operator platform isolation
- Smooth drum
- Fuel strainer
- Drum scraper
- Glow plugs
- ECO mode*

*Standard on all machines except those equipped with blade

OPTIONAL EQUIPMENT

- Inside scraper
- Bolt-on padfoot shell kit
- Premium bumper
- Audible alarm
- Work lights
- Rotating beacon
- Vandal cover
- First aid mounting
- Steering wheel - spinner kit
- Remote oil drain
- Tires - Diamond tread
- Tires - Traction tread
- Tow valve
- Special paint
- Bio-degradable oil
- Leveling blade
- Lifetime frame guarantee
- Air intake precleaner
- Hydraulic test ports

SELECTION OF VOLVO OPTIONAL EQUIPMENT

Clamp-on padfoot shell

Strike-off blade

Inside drum scraper

Work lights

Rotating beacon
